

SAVE OUR WOODLAND WALKS

“Every generation inherits places
that help define the character of its community.
Coombe Lane Woods is one of those places.”

While the ongoing legal process concerning historic routes remains
unresolved, residents are no longer able to enter to enjoy the woodland.

We are gathering at the edge of this remarkable place to reflect on what
the woods have meant to our community and to demonstrate the
strength of feeling we have for their protection and for our continued
access.

Join us on September 26th in safeguarding this
irreplaceable woodland for future generations.
